

Dear Parents and Cadets:

Due to anti spam legislation, increasing security concerns, and the need for complex e-mail programs, 2990 Milton Army Cadets will now be disseminating all information via a new, private, Facebook Resource Page.

This page will be restricted to currently serving cadets, parents/guardians, and staff. Our normal, public FB page and website will remain as is for the time being.

To join the Facebook page, visit the link: <http://www.facebook.com/groups/2990RCACC/>

You will be asked three (3) security questions (to be verified by staff through Fortress/official registration docs) before you will be admitted to the group. Be patient as there will likely be a flurry of requests at the start of the training year and cadets must be registered in our Fortress system before being admitted to the group.

WROs (Weekly Routine Orders) will be published on this site each week, usually on Sunday afternoon or evening, and will provide important information for the upcoming parade night. They will be in a format that you can easily download and print for reference if desired. Other important information concerning the cadet corps and upcoming events will be published here from time to time, so it is important that parents and cadets be a member of the group.

For security reasons you will not be permitted to comment, post, or share content (these functions are restricted to Admin only).

The new Facebook Resource Page will provide a much better method of distributing important information while at the same time, easing burdens on administration staff, and ensuring information is much more easily accessed by all stakeholders.

Capt D. Fimio, CD  
Commanding Officer  
2990 Lorne Scots RCACC
